

# CALL FOR APPLICATIONS

## THE SHRI RAM ARORA AWARD for

## MATERIALS SCIENCE AND ENGINEERING EDUCATION

### Submission Information and Application Form

The TMS Foundation, through a grant from the Dr. Om Arora family, has established the *Shri Ram Arora Award for Materials Science and Engineering Education* as a means of perpetuating their father's, Shri Ram Arora, quest for continual learning and academic challenge. The award will recognize, encourage, and support the quest for knowledge within the materials science and engineering community.

The award will be based on merit, however, in recognition of the Arora family's interest and heritage, applicants residing in India shall be given priority. Should there not be a qualified candidate from India, candidates of Indian heritage, currently residing in other countries, shall be considered. The applicant should be a graduate student majoring in materials science or a related field, or of post-doctoral status and currently, and actively involved in materials research. The applicant may not have reached his/her 30<sup>th</sup> birthday by the submission deadline date.

The Shri Ram Arora Award will grant up to \$2,500 to be distributed in two parts. The first part of the award is a \$1,000 cash award to be used at the recipient's discretion. The second part of the award, the remaining \$1,500, will be available for travel, accommodation, and registration expenses only to attend the TMS Annual Meeting. The award recipient is encouraged to submit an abstract and prepare an oral or poster presentation for the next TMS Annual Meeting, but this is not a requirement for application or consideration for the award.

**Applications for the Shri Ram Arora Award for Materials Science and Engineering Education are due July 1. Selections will be made by August 15.** The award will be presented during the next TMS Annual Meeting & Exhibition.
