

PROMOTING THE GLOBAL SCIENCE AND ENGINEERING PROFESSIONS CONCERNED WITH MINERALS, METALS AND MATERIALS

Request for TMS Co-sponsorship

A TMS co-sponsored meeting is an event endorsed by TMS, relies on TMS volunteers to develop some aspect of the event (typically a symposium or programming tract and/or proceedings), and is run entirely by another organization. To be considered for TMS co-sponsorship, an event must have technical relevance to the TMS audience and aid in fulfilling the TMS mission to promote the global science and engineering professions concerned with minerals, metals and materials.

If approved for TMS co-sponsorship, TMS will:

1. Provide volunteer support of programming and/or other content-related initiatives at the conference.
2. Encourage participation in the conference by its members and contacts.
3. List the conference via the TMS web site, inclusive of a link to the event web site.
4. List the conference in the Meetings Calendar of the society journal, *JOM*, and the society e-newsletter, *TMS e-News*.
5. Distribute event literature provided by the event's primary sponsors at TMS events.
