

**THE 13TH WORLD CONFERENCE  
ON TITANIUM 2015**

**August 16-20, 2015**

**Manchester Grand Hyatt,  
San Diego, California**

## **SUBMIT AN ABSTRACT TODAY!**

Be a part of the discussion about the latest in titanium science and technology. Seven major titanium-producing countries (United Kingdom, United States, Commonwealth of Independent States (CIS), Japan, Germany, France, and China) will explore new areas in research, development, and application of titanium.

**Bringing together the world's titanium community since 1968**

### **Technical topics include:**

- Extraction and Powder Production
- Wrought Processing and Fabrication
- Melting and Casting
- Alloy Composition – Microstructure-Properties
- Intermetallics and MMCs
- Additive and Near Net Shape Manufacturing
- Environmental Behavior
- Aerospace Applications
- Biomedical and Healthcare Applications
- Industrial, Marine, and Other Applications
- ICME – Integrated Computational Materials Engineering

Organized by an international committee, The 13th World Conference on Titanium (Ti-2015) is the next in a series of meetings held every four years since 1968 to bring together the world's titanium community.

**Deadline Extended: January 15, 2015**

Submit Abstracts at: [www.programmaster.org/Ti2015](http://www.programmaster.org/Ti2015)
