

TMS2010

139th Annual Meeting & Exhibition

February 14 - 18, 2010, Washington State Convention Center, Seattle, Washington USA

Reliability Excellence Workshop

Tuesday, February 16, 8 a.m. to 4:30 p.m.

The goal of this workshop is to create a fundamental understanding of how to drive improvements in manufacturing process reliability as a holistic business solution, and gain the support and sponsorship of the operational leaders in business. Since many organizations are currently engaged in initiatives focused on "Operational Excellence," there will be a dedicated emphasis on Reliability Excellence to build a foundation of stability and accelerate the improvement potential. Additionally, this workshop will include discussions and tools to enable business professionals to implement Overall Equipment Effectiveness as a leading indicator for managing losses from ideal performance.

Who should attend?

- Director of Manufacturing
- Director of Facilities and Engineering
- Plant Managers
- Production/Operations Managers
- Engineering Managers
- Maintenance Managers
- Procurement/Inventory Managers
- Manufacturing Engineers
- Reliability & Maintenance Engineers

Instructor

Life Cycle Engineering (LCE) is a trusted resource for reliability consulting, services and education. LCE's training entity, the Life Cycle Institute, specializes in cutting-edge course content for professionals, using adult education methods that minimize lecture and emphasize hands-on learning. The Reliability Excellence Workshop has been developed with TMS attendees in mind.

How to Register

Register by January 15, 2010 using the [online registration form](#) or download the [registration form \(PDF\)](#) and mail or fax with your payment. Cost is \$295 for members and \$325 for nonmembers.
