

TMS 2015

144th Annual Meeting & Exhibition

March 15-19, 2015 • Walt Disney World
Orlando, Florida, USA

Connecting the global minerals, metals, and materials community.

Plan Now to Attend:

Aluminum Reduction Technology

The Aluminum Reduction Technology Symposium, along with Alumina and Bauxite, Cast Shop Technology, and Electrode Technology for Aluminum Production, collectively form the Light Metals Symposium, where experts from the Light Metals industry and academia from all over the world meet each other and share information.

You are invited to submit papers in the following subject areas:

- Cell Operation (Performance and Operating Advances)
- Cell Start-Up and Early Operation
- Cell Modernization and Productivity Increase
- Process Control
- Modeling of Cell Design
- Environmental Aspects
- Fundamentals
- Bath Chemistry
- Power Modulation and Power Supply
- Improvements
- Inert Anode
- Operation
- Emerging Reduction Processes
- Safety Issues in Reduction Lines
- Aluminum Trend and Market Demand
- Energy-Saving Initiatives in Reduction Process
- Changes/Initiatives in Reduction Operation to cope with the financial crisis

The proceedings will be published in Light Metals 2015. A proceedings manuscript is required from all presenters.

Sponsored by:

- TMS Light Metals Division
- Aluminum Committee

Organized by:

Gary Tarcy, Alcoa (USA)
