

# TMS2015

144<sup>th</sup> Annual Meeting & Exhibition

March 15-19, 2015 • Walt Disney World  
Orlando, Florida, USA

*Connecting the global minerals, metals, and materials community.*

## **Plan Now to Attend:**

### **Phase Stability, Phase Transformations, and Reactive Phase Formation in Electronic Materials XIV**

This is the 14th in a series of TMS symposia addressing the stability, transformation, and formation of phases during the fabrication, processing, and utilization of electronic materials and devices. Topics of interest include phase stability issues surrounding microelectronics packaging technology or energy materials, phase formation and integrated circuit technology, and the phase stability and morphological evolution of novel electronic materials.

#### **Sponsored by:**

- TMS Functional Materials Division (formerly EMPMD)
- Alloy Phases Committee

#### **Organized by:**

Chao-hong Wang, National Chung Cheng University (Taiwan)  
Jae-Ho Lee, Hongik University (Korea South)  
Clemens Schmetterer, Forschungszentrum Juelich, Inst. For Energy and Climate Research - 2 (Germany)  
Ikuo Ohnuma, Tohoku University (Japan)  
Shien Ping Feng, The University of Hong Kong (Hong Kong)  
Shih-Kang Lin, National Cheng Kung University (Taiwan)  
Chih-Ming Chen, National Chung Hsing University (Taiwan)  
Yee-Wen Yen, National Taiwan University of Science and Technology (Taiwan)
