

TMS2015

144th Annual Meeting & Exhibition

March 15-19, 2015 • Walt Disney World
Orlando, Florida, USA

Connecting the global minerals, metals, and materials community.

Plan Now to Attend:

Recycling and Sustainability Update

The Recycling and Sustainability Update aims to provide a venue for continued dissemination of information in the rapidly changing area of sustainability. This symposium will cover current technological developments in recycling across the range of metals and other materials as well as research that explores sustainability related to all forms of materials. This symposium will allow researchers and industry to come together to exchange the latest ideas, challenges, and opportunities faced by all stakeholders.

Sponsored by:

- TMS Extraction & Processing Division; TMS Light Metals Division
- Recycling and Environmental Technologies Committee

Organized by:

Randolph E. Kirchain, MIT (USA)
Jeffrey S. Spangenberg, Argonne National Laboratory (USA)
