Pan American Materials Congress: Materials for Infrastructure

Submit Your Abstract at www.tms.org/PanAmCongress

Maintaining infrastructure in metropolitan and urban areas remains a global challenge in the 21st century. This symposium will examine the state-of-the-art and potential for future innovations in materials issues related to infrastructure.

Specific theme areas for abstract submissions include (but are not limited to):

- Next generation concretes and asphalts
- Concrete reinforcement materials issues including rebar (steels), other reinforcements, and coatings
- Metallic materials in infrastructure applications, including steel-, aluminum-, and copper-based alloys
- Materials for highways, bridges, etc.
- Corrosion and materials degradation issues in infrastructure applications
