Pan American Materials Congress: Materials for the Oil and Gas Industry

Submit Your Abstract at www.tms.org/PanAmCongress

Keynotes: *Ke Lu, Institute of Metal Research, Chinese Academy of Sciences*
Lei Zheng, Baosteel

This symposium will highlight materials-related innovations in processing for oil and gas extraction, production, refining, and transportation. Particular emphasis will be given to the development of processing-microstructure-property relations on specific applications involving materials degradation, protective coatings, failure analysis, etc.

Specific theme areas for abstract submissions include (but are not limited to):

- Next generation of metallic and non-metallic materials design, manufacture, and processing
- Welding technology
- Corrosion and corrosion protection
- Structural integrity and failure analysis
- Non-destructive evaluation
