

CALL FOR ABSTRACTS – DEADLINE: JULY 31, 2019

14TH INTERNATIONAL SYMPOSIUM ON SUPERALLOYS

SEPTEMBER 13–17, 2020

Seven Springs Mountain Resort • Seven Springs, Pennsylvania, USA

Superalloys 2020 will convene the breadth of the superalloys technology community to share and advance innovations in materials processing, properties, coating technology, industrial applications, and the development of new superalloy compositions.

Participate in this carefully curated, high-quality technical program by submitting your abstract today at www.tms.org/Superalloys2020 The Superalloys 2020 symposium invites papers from academia, supply chain, and product-user members of the superalloys community. Technical topics for Superalloys 2020 include, but are not limited to:

- Improving superalloy manufacturability, affordability, lifecycle, and performance
- Property models and computational tools for superalloys
- Innovative characterization techniques and processing methods for superalloys
- Alloy development and superalloy coatings
- Superalloy mechanical behavior and environmental effects

Learn more and submit your abstract by July 31, 2019 at www.tms.org/Superalloys2020

CONFERENCE ORGANIZING COMMITTEE:

- **Chair:**
Sammy Tin
Illinois Institute of Technology
- **Justin Clews**
PCC Structural
- **Jonathan Cormier**
ISAE-ENSMA
- **Qiang Charles Feng**
University of Science and Technology Beijing
- **Mark Hardy**
Rolls-Royce plc
- **John Marcin**
Pratt & Whitney
- **Chris O'Brien**
ATI Specialty Materials
- **Akane Suzuki**
GE Global Research

Sponsored by:

TMS

Structural Materials Division (SMD) and the High Temperature Alloys Committee
