JUNE 15–18, 2021
VIRTUAL EVENT

The 12th International Conference on Magnesium Alloys and their Applications (Mg 2021) will convene the global research community for a virtual event. The robust technical program offers a combination of live and pre-recorded sessions, featuring 11 plenary speakers, 26 invited speakers, and more than 140 contributed talks and posters.

Discussions will include the following topics:

- Alloy Development
- Forming and Thermo-mechanical Processing
- Corrosion and Protection
- Modeling and Simulation
- Structural, Functional, Biomedical, and Energy Applications
- And More!

**Explore the latest discoveries with
the growing magnesium community.**

PLENARY SPEAKERS

John Allison,
University of
Michigan, USA

**Maria Teresa
Perez-Prado,**
IMDEA Materials
Institute, Spain

Irene Beyerlein,
University of
California Santa
Barbara, USA

Anil Sachdev,
General Motors
Company, USA

Nick Birbilis,
Australian National
University,
Australia

Kwang Seon Shin,
Seoul National
University, Korea

Hamid Jahed,
University of
Waterloo, Canada

Jonathan Weiler,
Meridian
Lightweight,
Canada

Michele Manuel,
University of
Florida, USA

Michael Worswick,
University of
Waterloo, Canada

Fusheng Pan,
Chongqing
University, China
