Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: May 2022

Manuscript Deadline: December 1, 2021

Sustainable Composite Materials

This special topic covers composite materials that are derived from renewable sources and/or can be used in renewable energy-based applications such as wind energy, and solar, among others. Fundamental and applied research in this area is welcome. This call invites scientists from diverse groups such as early career, graduate students, academics, industry, and national labs to submit their research.

Original research papers should be 3,000-9,000 words with up to 12 figures maximum; review papers should be 6,000-11,000 words with up to 20 figures maximum.

Detailed author instructions are available at: http://www.tms.org/AuthorTools/

Keywords for this topic: Advanced Processing; Characterization; Composites

Guest Editor(s): Simona Hunyadi Murph and Surojit Gupta: Simona.Murph@srnl.doe.gov; surojit.gupta@und.edu

Committee Sponsor(s): Composite Materials; Energy Conversion and Storage

If you are interested in submitting a paper, upload your manuscript at https://www.editorialmanager.com/jomj/

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
