

# JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

**Publication Date:** *December 2023*

**Manuscript Deadline:** *June 1, 2023*

## ***Nanostructured Biomaterials***

This special topic will consider articles and reviews involving nanostructured biomaterials. The use of materials with dimensions or components between 1 nanometer and 100 nanometers for health science applications is a major focus of materials research. These materials provide unique capabilities for interactions with biological structures. Moreover, nanostructured biomaterials may enable miniaturization of medical devices and a decrease in the cost of medical devices.

Original research papers should be 3,000-9,000 words with up to 12 figures maximum; review papers should be 6,000-11,000 words with up to 20 figures maximum.

Detailed author instructions are available at:

<http://www.tms.org/AuthorTools/>

**Keywords for this topic:** **Advanced Materials; BioMaterials; Nanotechnology; Thin Films and Interfaces**

**Guest Editor(s):** Roger Narayan:  
[rjnaraya@ncsu.edu](mailto:rjnaraya@ncsu.edu)

**Committee Sponsor(s):** **Other-Invited**

If you are interested in submitting a paper, upload your manuscript at  
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
