

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *October 2018*

Manuscript Deadline: *May 1, 2018*

The Chemistry and Physics of Materials Committee is seeking papers on the topic of *Nanoporous and Nanoarchitected Materials*

Nanoporous and nanoarchitected materials are attractive nanomaterials, offering large surface areas and extremely light weights. The properties and applications of porous solids depend on their porosity, network structure, and surface area. Some potential applications include energy harvesting and storage, fuel cells, Li-ion batteries, hydrogen storage, and catalysis.

Typical paper length is 5,000 to 6,500 words for review papers, and 2,400 to 4,000 words for original papers.

Detailed author instructions are available at:

<http://www.tms.org/AuthorTools/>

Keywords for this topic:

Advanced materials, alloy phases, computational materials science and engineering, energy conversion and storage, and environmental effects

Guest Editors for this *JOM* topic are Niaz Abdolrahim and Thomas Balk:

niaz@rochester.edu; john.balk@uky.edu

If you are interested in submitting a paper, upload your manuscript at

<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
