International Peirce-Smith Converting Centennial

Historical Foundations/Refractory Practices

William Peirce and E.A. Cappelen Smith and Their Amazing Copper Converting Machine.....	3
<i>L. Southwick</i>	
Before Peirce and Smith - The Manhes Converter: Its Development and Some Reflections for Today.....	29
<i>A. Pelletier, P. Mackey, L. Southwick, and A. Wraith</i>	
Conflicts over Designs, Refractories and Awards: The First 20 Years of PS Experience.....	51
<i>L. Southwick</i>	
Converting and Refining – Experience in Ferrous and Non-Ferrous Metallurgy.....	53
<i>T. Lehner, and C. Samuelsson</i>	
Chrome-Magnesite Refractory Corrosion with Olivine Slag of High Cuprous Oxide Content.....	71
<i>C. Ramirez, P. Ruz, G. Riveros, A. Warczok, and R. Treimer</i>	
Development of Refractory Practices for Peirce Smith Converters	81
<i>J. Bäckström, and M. Hansel</i>	
Corrosion of Refractories in Peirce Smith Converters	83
<i>G. Oprea, W. Lo, T. Troczynski, and J. Rigby</i>	

Operational Aspects

A Century of Converter Operation in Vale Inco's Ontario Operations.....	103
<i>S. Marcuson</i>	
Converting and Casting at Boliden's Rönnskär Smelter 2009 – An Update	127
<i>M. Ek, and P. Olsson</i>	
Environmental Situation and Enhanced Productivity at Norddeutsche Affinerie AG	133
<i>T. Buenger</i>	
Evolution of the Converter Aisle at Xstrata Nickel's Sudbury Smelter	135
<i>B. Salt, and E. Cerilli</i>	
Recent Operation and Improvement at the Sumitomo Toyo Peirce-Smith Converters	151
<i>K. Mori, K. Nagai, K. Morita, and O. Nakano</i>	
The Use of Injection Tuyeres Clad Welding with Anti- Abrasive in the Teniente Converter.....	161
<i>L. González M., J. Davis C., and G. Guzman D.</i>	
Full Utilization of the Matte Converting Process Energy for Operating Conditions of the RTB Bor	167
<i>B. Petkovic, and B. Todorovic</i>	

Injection Techniques, Modeling and Process Control

Peirce-Smith Converting: Another 100 Years?	181
<i>T. Price, C. Harris, S. Hills, W. Boyd, and A. Wraith</i>	
Technology and Operational Improvements in Tuyère Punching, Silencing, Pyrometry and Refractory Drilling Equipment	199
<i>M. Marinigh</i>	
Increasing Capacity and Productivity in the Metals Markets through Pneumatic Conveying and Process Injection Technologies	217
<i>M. Coleman, and G. Money</i>	

Decision-making Software for the Incremental Improvement of Peirce-Smith Converters	231
<i>A. Navarra, and J. Kapusta</i>	
Advanced Metallurgical Modeling of Ni-Cu Smelting at the Xstrata Nickel's Sudbury Smelter	251
<i>N. Tripathi, P. Coursol, D. Tisdale, and P. Mackey</i>	
A Dynamic Simulation for the Validation Tests of the Codelco-Chile Continuous Converting Process	263
<i>C. Caballero, A. Moyano, P. Morales, C. Toro, H. Jara, L. Guzmán, and R. Díaz</i>	
Applications of Thermo-Chemical and Thermo-Physical Modeling in the Copper Converter Industries	273
<i>P. Tan</i>	
Minimum Numerical Model of a Peirce-Smith Converter	297
<i>A. Cervantes-Clemente, C. Real-Ramirez, M. Palomar-Pardave, L. Hoyos-Reyes, M. Gutierrez-Villegas, and J. Gonzalez-Trejo</i>	
Key Performance Indicators of Peirce-Smith converting – Choosing the correct parameters to monitor	311
<i>B. Hogg, and J. Ball</i>	
<u>New Converting Technologies</u>	
Continuous Converting of Copper Matte in Packed Bed Reactor	315
<i>A. Warczok, G. Riveros, J. Vargas, R. Saez, and A. Tapia</i>	
Scrap Melting in the Anode Furnace and the Development of Coherent Jet Technolgy in Copper Refining	321
<i>A. Deneys, and A. Enriquez</i>	
Advantages of Continuous Copper Fire Refining in a Packed Bed.....	339
<i>G. Riveros, A. Warczok, D. Smith, and A. Balocchi</i>	
The Validation of the Codelco-Chile Continuous Converting Process	349
<i>A. Moyano, C. Caballero, C. Toro, P. Morales, and J. Font</i>	
Continuous Improvement in Peirce-Smith Converter Design - Kumerá's Approach.....	361
<i>S. Chen, H. Mansikkaviita, M. Rytönen, and I. Kylmäkorpi</i>	

Operation of the Air Liquide Shrouded Injector (ALSI) Technology in
a Hoboken Siphon Converter367
R. Pagador, N. Wachgama, C. Khuankla, and J. Kapusta

Flash Converting - Sustainable Technology Now and in the Future383
I. Kojo, M. Lahtinen, and E. Miettinen

Ausmelt C3 Converting397
J. Wood, R. Matuszewicz, and M. Reuter

ISACONVERT™ – TSL Continuous Copper Converting Update407
S. Nikolic, J. Edwards, A. Burrows, and G. Alvear
