SUBMIT AN ABSTRACT FOR THE FOLLOWING TMS2022 SYMPOSIUM:

MATERIALS PROCESSING

Advances in Powder and Ceramic Materials Science

This symposium emphasizes the advances of powder and ceramic/glass materials in the fundamental research, technology development, and industrial applications. Ceramic materials science covers the science and technology of creating objects from inorganic, non-metallic materials, and includes design, synthesis, and fabrication of ceramics, glasses, advanced concretes, and ceramic-metal composites. In recent years, the hybrids of ceramic and metallic materials have received plenty of interdisciplinary inspirations and achievements in material processes and functional applications including ionic conductors, catalysis, energy conversion and storage, superconductors, semiconductor, filtrations, etc.

Topics of this symposium will cover, but not limited to:

- Silicates, oxides, and non-oxide ceramics and glasses
- Synthesis, characterization, modeling, and simulation of ceramic materials
- Design and control of ceramic microstructure and properties
- Ceramic powders and processing
- Catalyst and catalyst support materials
- Fundamental understanding of ceramic materials and processes
- Novel methods, techniques, and instruments used to characterize ceramics and glasses
- Bioceramics, electronic, magnetic ceramics, and applications
- Surface treatment and ceramic thin films, membranes, and coatings
- Porous ceramic materials
- Hybrid systems of ceramic, metal, and/or polymer composites
- Ceramics used for extreme environments
- Metallurgical byproducts for ceramic manufacturing

ORGANIZERS
Bowen Li, Michigan Technological University
Shefford P. Baker, Cornell University
Kathy Lu, Virginia Polytechnic Institute and State University
Faqin Dong, Southwest University of Science and Technology
Jinhong Li, China University of Geosciences
Eugene A. Olevsky, San Diego State University
Ruigang Wang, The University of Alabama
Dipankar Ghosh, Old Dominion University

SYMPOSIUM SPONSORS
TMS Materials Characterization Committee
TMS Powder Materials Committee
