

SUBMIT AN ABSTRACT BY JULY 1

FEBRUARY 27-MARCH 3, 2022
ANAHEIM CONVENTION CENTER & ANAHEIM MARRIOTT
ANAHEIM, CALIFORNIA, USA
#TMSAnnualMeeting

SUBMIT AN ABSTRACT FOR THE FOLLOWING TMS2022 SYMPOSIUM:

MATERIALS PROCESSING

Powder Metallurgy of Light, Reactive and Other Non-ferrous Metals

Papers addressing all aspects of powder metallurgy (PM) of light, reactive and other non-ferrous metals, and their applications will be welcome. The following topics will be particularly appreciated:

- Novel synthesis or production of powder materials
- Applications of powder materials in various forms including loose powders
- Porous materials made from powder
- Recent advances in powder consolidation processes (e.g., spark plasma sintering; microwave sintering; powder forging, powder extrusion, powder injection moulding, cold spray forming)
- Functionally graded materials and composites by powder metallurgy processes
- Reactive feedstock development for both PM and AM (additive manufacturing) processes
- Modelling and simulation

ORGANIZERS

Ma Qian, Royal Melbourne Institute of Technology

James D. Paramore, US Army Research Laboratory

David P. Yan, San Jose State University

Gang Chen, University of Science and Technology Beijing
