International Nickel-Cobalt 2013 Symposium
March 3-7, 2013 • San Antonio, Texas USA

Call for Papers

Sponsored by:
TMS Extraction & Processing Division
The Metallurgy and Materials Society of the CIM
TMS High Temperature Alloys Committee

Symposium Scope

The 2013 TMS International Nickel-Cobalt Symposium will provide a forum for presenting and discussing advancements in all aspects of nickel and cobalt processing; including fundamentals, technology, operating practices, and related areas of Platinum-Group Metals (PGM) processing. This symposium follows the successful Ni-Co symposium held as part of COM2009. It will focus on the treatment of sulphide and laterite ores, concentrates and secondary materials for the production of nickel and cobalt. We are soliciting papers in the fields of mining, mineral processing, pyrometallurgy, hydrometallurgy, electrometallurgy and physical metallurgy, including waste treatment and recycling. Authors are sought from mining companies, metal producers, end-users, equipment suppliers, engineering consultants and academics. Particular topics of interest include operational updates, project and process development, R&D initiatives, emerging technologies, PGM co-production, sustainability, environmental stewardship, health and safety and downstream applications.

Organizers:

Thomas P. Battle  (Lead)
Midrex Technologies
tbattle@midrex.com

Mike Moats
University of Utah
mike.moats@utah.edu

Shijie Wang
Kennecott
wangs@kennecott.com

Antoine Allanore
Massachusetts Institute of Technology
allanore/MIT.EDU

Corby Anderson
Colorado School of Mines
cganders@mines.edu

Ron Schonewille
Xstrata Nickel
rschonewille@xstratanickel.ca

Shafiq Alam
Memorial University of Newfoundland
alam@mun.ca

Violina Cocalia
Cytec
Violina.Cocalia@cytec.com

Xingbo Liu
West Virginia University
Xingbo.liu@mail.wvu.edu
