

# TMS 2011

140th Annual Meeting & Exhibition

February 27 - March 3, 2011 • San Diego, California, USA

## Chloride 2011 – Practice and Theory of Chloride-Based Metallurgy

### Sponsored by

TMS Extraction and Processing Division (EPD) and TMS Light Metals Division  
*Hydrometallurgy and Electrometallurgy Committee (EPD)*  
*Recycling and Environmental Technology Committee (EPD/LMD)*  
*Energy Committee (LMD/EPD)*  
*Magnesium Committee (LMD)*

### List of Topics

#### Metals:

- Base Metals
- Titanium
- Precious Metals
- Aluminum and Magnesium
- Lithium and Rare Earth Metals
- Other Metals

#### Processes:

- Hydrometallurgy
  - Leaching
  - Solution Purification, including SX and IX
  - Product Recovery
- Pyrometallurgical Treatment
- Molten Salt Processing
- Emerging Technologies

#### General Aspects:

- Materials of Construction
- Energy Aspects
- Environmental Implications
- Wastes and Recycling

#### Fundamentals:

- Advancements in Fundamental Understanding of Chloride Media and Processes

A plenary session is planned at the beginning of the symposium and a panel discussion at the end.

### Organized by

#### Dirk E. Verhulst

Consultant  
Extractive Metallurgy and Energy Efficiency  
Reno, Nevada, USA  
Tel: 775-324-5123  
dirkverhulst@gmail.com

#### V.I. (Lucky) Lakshmanan

Vice-Chairman and CEO  
Process Research Ortech, Inc.  
Mississauga, Ontario, Canada  
Tel: 905-822-4941, ext. 216  
LLAKSHMANAN@processortech.com

### To submit an abstract:

Abstracts must be submitted by July 15, 2010 via ProgramMaster featured on the [TMS 2011 home page](#).  
(Please click on the 'Abstract Submissions' link in the ProgramMaster box).
