PROFESSIONAL DEVELOPMENT EVENT AT TMS2016**

NSF Grant Proposal Writing Workshop

Sunday, February 14, 2016 • 8:30 a.m. to noon (EST)

Sponsored by the TMS Professional Development Committee

INSTRUCTORS

Alexis C. Lewis, National Science Foundation and Eric M. Taleff, The University of Texas at Austin

WORKSHOP OVERVIEW

This workshop will cover the fundamentals of successful grant proposal writing for the National Science Foundation (NSF). Participants will learn about key topics, including the components of a successful proposal, finding the right home for your research, and details about the NSF review process. An interactive session will include a mock panel where participants will have the opportunity to review and comment on example research project summaries, providing a glimpse into the review process from the “other side of the table.”

Program directors from the NSF Directorate of Engineering will discuss the merit review process, funding profiles, and NSF programs, solicitations, and other opportunities. This workshop will be geared towards early career investigators at U.S. institutions seeking to understand the NSF merit review process, but the information provided will be valuable to principal investigators in any stage of their career seeking to learn more about proposal writing and NSF funding opportunities.

REGISTRATION FEES

Register for this professional development event through the TMS 2016 Annual Meeting & Exhibition Registration Form.

Before January 8, 2016	After January 8, 2016
