## Energy Management in the Materials Industry

Sunday, February 14, 2016 • 8:30 a.m. to 12:30 pm. (EST)

Sponsored by the TMS Extraction & Processing Division,  
Light Metals Division, and Energy Committee

### INSTRUCTORS

**Cynthia Belt**, Energy Management Consultant, and **Rodrigo Corbari**, Vallourec Star

### WORKSHOP OVERVIEW

Energy management programs provide a structure for continuous improvement to reduce energy costs. Energy efficiency and energy conservation will reduce greenhouse gases, improve the environmental impact of the process, and reduce bottom line costs of the business.

This training is directed toward energy managers, engineers, and supervisors working in the materials industry who want to reduce their energy usage. The training is meant to explain both general energy management methods and those areas specific to the metals and materials industry.
