February 26 – March 2, 2017
San Diego, California, USA

THE SCIENCE OF MELT REFINING: AN LMD SYMPOSIUM IN HONOR OF CHRISTIAN SIMENSEN AND THORVALD ENGH

Cast Shop Technology, along with Aluminum Reduction Technology, Aluminum Alloys: Processing and Characterization, Electrode Technology for Aluminum Production, and Alumina and Bauxite collectively form the Light Metals Symposium.

This year, dedicated sessions in the Cast Shop Technology symposium will honor the contributions by Thorvald Engh and Christian Simensen of Norway to the science and technology of alloying practice, melt oxidation, melt characterization, and melt refining.

ORGANIZERS

John Grandfield, Grandfield Technology Pty Ltd, Australia

Anne Kvithyld, SINTEF, Norway

SYMPOSIUM SPONSOR

TMS Aluminum Committee
