ACKNOWLEDGE & PERMISSION: AIME ORAL HISTORIES PROJECT

As a recipient of this symposium, the honoree's name may be given to the American Institute of Mining, Metallurgical and Petroleum Engineers (AIME) to be considered for participation in their Oral Histories project. (For information on this undertaking, please see [AIME Oral Histories](#)). The symposium organizer should discuss with the honoree this option, then indicate below their permission to do so.

As the honorary symposium organizer, I have discussed the option above with the honoree; their response is as follows:

_____ Yes, I give permission for my name to be given to the AIME for consideration as a participant in their Oral Histories Project.

_____ No, I do not give permission for my name to be given to the AIME for consideration as a participant in their Oral Histories Project.
