ANODE TECHNOLOGY

for the Aluminum Industry Course

September 9–13, 2019

Fretheim Hotel • Flåm, Norway

Improve efficiency and anode performance with your company at the 2019 Anode Technology for the Aluminum Industry Course (Anode 19). This operations-focused course will provide a basic understanding of the principles and operating practices needed for consistent production of high-quality anodes.

Technical Topics to be addressed include:

- CTP and CPC Raw Materials
- Green Anode Production
- Anode Baking
- Anode Rodding
- Emissions Control
- Anode Cover Materials
- Anode Performance and Design Considerations
- Hydro Aluminium AS Årdal Plant Tour (registration includes tour transportation)
