

MetFoam2019

11th International Conference on Porous Metals and Metallic Foams

August 20–23, 2019

DoubleTree by Hilton Hotel • Dearborn, Michigan, USA

www.tms.org/MetFoam2019

CALL FOR ABSTRACTS:

Submission Deadline:
December 3, 2018

The 11th International Conference on Porous Metals and Metallic Foams (MetFoam 2019) is the largest cross-disciplinary, international technical meeting focused exclusively on the production, properties, and application of lightweight porous/cellular materials.

Plan to be part of MetFoam 2019 and connect with other experts in the field by submitting your abstract for consideration by December 3, 2018.

Topics planned for MetFoam 2019 include, but are not limited to:

- Fabrication by conventional and novel methods including additive manufacturing
- Characterization
- Properties of compressed and un-compressed foam
 - Mechanical properties
 - Other properties
- Design of porous metals, metallic foams, and lattice structures
- Fluid, heat, and mass transfer
- Porous biomaterials
- Nanoporous metals
- Industrial applications of porous metals and metallic foams

Visit www.tms.org/MetFoam2019 to learn more about the technical topics and other plans for the conference.

Submit Your Abstract by December 3, 2018 to:

www.tms.org/MetFoam2019

ORGANIZERS:

GENERAL CHAIR:

Nihad Dukhan, University of Detroit Mercy, USA

STEERING COMMITTEE:

Olaf Andersen, IFAM Dresden, Germany

John Banhart, Institute of Applied Materials, Germany

David Dunand, Northwestern University, USA

Bo-Young Hur, Gyeongsang National University, South Korea

Louis-Philippe Lefebvre, National Research Council, Canada

Hideo Nakajima, The Wakasa Wan Energy Research Center, Japan

Afsaneh Rabiei, North Carolina State University, USA

Franticek Simancik, Institute of Materials & Machine Mechanics SAS, Slovakia

Hui-ping Tang, State Key Laboratory of Porous Metal Materials, Northwest Institute for Nonferrous Metal Research, China

Dong-hui Yang, Hohai University, China
