The 6th International Congress on

3DMS

3D Materials Science 2022

June 26–29, 2022

**Hyatt Regency Washington on Capitol Hill,
Washington, D.C., USA**

Come together with key researchers to assess the state-of-the-art within the various elements of 3D materials science and identify areas of future research. The 3DMS 2022 technical program offers many oral and poster presentations, along with excellent networking opportunities.

KEYNOTE SPEAKERS

**Henning
Friis Poulsen,**
Technical University
of Denmark

Reeju Pokharel,
Los Alamos
National
Laboratory

Michael Uchic,
Air Force Research
Laboratory

**“For me, the 3DMS
congress series is
outstanding and ‘a
must’ to attend, as
it is the cornerstone
in building a new
community within
materials science.”**

**- Dorte Juul Jensen,
3DMS 2021 Chair**

Plus, over a dozen invited speakers!
Go to the website for details and to register.

CONGRESS ORGANIZERS

- **Dorte Juul Jensen**, Technical University of Denmark, Denmark
- **Marie Charpagne**, University of Illinois, USA
- **Keith Knipling**, Naval Research Laboratory, USA
- **Klaus-Dieter Liss**, Guangdong Technion - Israel Institute of Technology, China
- **Matthew P. Miller**, Cornell University, USA
- **David J. Rowenhorst**, U.S. Naval Research Laboratory, USA
