INSTRUCTIONS FOR TMS FELLOW NOMINATORS AND LETTER WRITERS

TMS members and the broader materials science and engineering community view being named a TMS Fellow as a pinnacle achievement, the mark of a true leader in the materials profession. TMS is committed to maintaining the prestige of this award while also assuring that we are inclusive and diverse in our appreciation of materials leadership. We believe that all TMS members should aspire to achieve the rank of Fellow, and we thank you for helping us identify those that have truly become thought leaders in our field.

We appreciate very much your taking the time to highlight the nominee's career achievements on this nomination form and in the support letters that are included with the nomination. It would be especially helpful to the selection committee if you could provide specific examples and help us quantify the impact that he or she has made on our profession. Recognizing that scientific, engineering, translational and educational accomplishments are all essential and interrelated components in the practice and promotion of materials science and engineering, we encourage you to use the metrics and examples that best fit the nominee.

Nominees shall be full current members of TMS with at least five consecutive years of membership from when the initial nomination package is submitted. Posthumous nominations for Fellow will not be accepted for consideration. A nomination is good for three years provided it meets criteria for the award each year. If a nomination is unsuccessful in the subsequent three-year cycle, the candidate must wait three years before being re-nominated.

This award recognizes members of TMS who are qualified for elevation to the Class of Fellow by reason of outstanding contributions to the practice of metallurgy, materials science, and technology. The award includes a life membership to TMS. Life membership to TMS shall be awarded in September. This award is considered a pinnacle award. The TMS Fellow Award is presented at the TMS Annual Meeting during the TMS-AIME Awards Ceremony.

TMS does not discriminate with respect to nationality, citizenship, race, sex, occupation, or age in selecting award recipients.
