AWARDS SELECTION PROCESS

Most TMS awards follow the timeline outlined on this form. Nominations are valid for three years provided they meet criteria for the awards each year.

TMS does not discriminate with respect to nationality, citizenship, race, sex, occupation, or age in selecting award recipients. However, the Young Innovator in the Materials Science of Additive Manufacturing Award and Robert Lansing Hardy Awards, which recognize awardees at a particular point in their careers, have specific age requirements and other select awards require that the nominee be a TMS member. The majority of awards are presented at the TMS Annual Meeting, either at the TMS-AIME Awards Ceremony or at division functions.

For a complete list of criteria and nomination requirements, please visit the individual award pages available at www.tms.org/awards.
