

# JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

**Publication Date:** *January 2020*

**Manuscript Deadline:** *August 1, 2019*

## ***Advances in Characterization of Powder Materials***

Papers are invited on the characterization and study of systems containing particulate solids through scanning and transmission electron microscopies, x-ray diffraction, etc. Especially, reports on formation and synthesis of particles, modification of particles by agglomeration, coating, comminution and attrition, characterization of the size, shape, surface area, pore structure and strength of particles and agglomerates are welcome. There is no limitation on the size of the particles.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.
