

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *December 2020*

Manuscript Deadline: *July 1, 2020*

Graphene-based Composite Materials and Applications

Graphene-based composite materials consist of an inorganic host solid, graphene, that is coupled with an assortment of one or more dissimilar materials. The beauty of the composite materials lies within the multifunctionality rendered by the novel design structures that often have improved properties that are not available in the original component materials. Manuscripts on recent developments of all aspects of preparation, characterization, and novel applications of advanced graphene-based composite materials are invited.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic: **Composites; graphene**

Guest Editor(s): **Simona Hunyadi Murph:**
simona.murph@srnl.doe.gov

Committee Sponsor(s): **Composite Materials**

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
