

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *August 2020*

Manuscript Deadline: *March 1, 2020*

Advanced Processing and Additive Manufacturing of Functional Magnetic Materials

Papers are invited on advanced processing and advanced manufacturing of functional materials with particular emphasis on magnetic materials. In particular, papers addressing permanent magnets, magnetocaloric materials, soft magnets, magnetic shape memory alloys, and multiferroics are welcome. Additive approaches to similar classes of functional materials are invited as well.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic: **Additive manufacturing; advanced materials; energy conversion and storage; functional materials; magnetic materials; environmental issues**

Guest Editor(s): **Scott McCall and Ikenna Nlebedim:**
mccall10@llnl.gov; nlebedim@ameslab.gov

Committee Sponsor(s): **Magnetic Materials**

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
