JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *November 2020* Manuscript Deadline: *June 1, 2020*

Process Design and Materials Development for High-Temperature Applications

Due to their unique characteristics, refractory materials are of specific interest for functional and structural high-temperature applications. The focus of this special topic includes the design, development, and processing of refractory metals, alloys, and compounds. Contributions are invited from authors working on high-temperature materials to share and discuss their latest experimental and theoretical results and advancements.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at: http://www.tms.org/AuthorTools/

Keywords for this topic: Advanced Materials; Ceramics

Guest Editor(s): Ravi Enneti and Chai Ren: ravi.enneti@globaltungsten.com; chai.ren.cn@gmail.com

Committee Sponsor(s): Refractory Metals & Materials

If you are interested in submitting a paper, upload your manuscript at https://www.editorialmanager.com/jomj/

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
