

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *February 2022*

Manuscript Deadline: *September 1, 2021*

Characterization of Waste-Derived Materials

Papers are invited on the latest achievements in exploration of novel value-added materials derived from various wastes. In particular, papers on characterization and modification for those originated from mineral/metallurgical/material processing are welcome. Of interest are multifunctional slag/tailing-based materials with unique combinations of desirable thermo-mechanical-chemical performance for sustainable industrial and municipal applications.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic: *Characterization; Environmental Effects; Extraction and Processing; Process Mineralogy; Recycling and Secondary Recovery*

Guest Editor(s): *Zhiwei Peng, Yunus Eren Kalay, Rajiv Soman and Jian Li:*

zwpeng@csu.edu.cn; ekalay@metu.edu.tr; RajivSoman@eurofinsEAG.com; jian.li@canada.ca;

Committee Sponsor(s): *Materials Characterization*

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
