

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *March 2022*

Manuscript Deadline: *October 1, 2021*

Powder Metallurgy of Non-Ferrous Metals: Striving Toward Technology Advancement

Papers are invited exploring all aspects of powder metallurgy of non-ferrous metals. Example topics include but are not limited to: (i) powder processing of light and reactive metals, high entropy alloys, and functionally graded materials and composites, (ii) recent advances in powder consolidation processes, e.g., spark plasma and microwave sintering, powder forging and extrusion, and cold spray forming, (iii) manufacturability investigations, novel process development and robustness, and (iv) modelling and simulation.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic: **Additive Manufacturing; Advanced Processing; Characterization; Modeling and Simulation; Powder Technology; Manufacturability;**

Guest Editor(s): **David Yan and Kathy Lu:**
david.yan@sjsu.edu; klu@vt.edu

Committee Sponsor(s): **Powder Materials**

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
