

# JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

**Publication Date:** *June 2022*

**Manuscript Deadline:** *January 1, 2022*

---

## ***Magnetic Structure Characterization over Multiple Length Scales***

---

Magnetic structures form over multiple length scales. Characterization of magnetic structures over multiple length scales plays an essential role in advancing the understanding of structure-property-processing relationships of magnetic materials. This topic covers various complementary characterization techniques that help illuminate the magnetic phenomena from atomic-scale spin configurations to nano-scale structures to meso-scale domains in magnetic materials.

Original research papers should be 3,000-9,000 words with up to 12 figures maximum; review papers should be 6,000-11,000 words with up to 20 figures maximum.

Detailed author instructions are available at:  
<http://www.tms.org/AuthorTools/>

**Keywords for this topic:** *Characterization; Magnetic Materials; Spin Configuration; Magnetic Domain; Domain Wall*

**Guest Editor(s):** Yongmei Jin:  
[ymjin@mtu.edu](mailto:ymjin@mtu.edu)

**Committee Sponsor(s):** *Magnetic Materials*

If you are interested in submitting a paper, upload your manuscript at  
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
