

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *January 2022*

Manuscript Deadline: *August 1, 2021*

Technology Metals in the Circular Economy of Cities

The need for technology metals such as precious metals, rare earths, and minor metals (Sb, Co, etc.) will continue to increase. However, the recycling rate of these metals is inadequate. This special topic focuses on innovative recycling technologies that would improve recovery rate of these technology metals from municipal waste streams (MWSs). Manuscripts that address waste treatment and life cycle assessments pertaining to the (potential) recovery of technology metals from MWSs are welcome.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic: **Extraction and Processing; Hydrometallurgy; Pyrometallurgy; Recycling and Secondary Recovery; Life cycle assessment**

Guest Editor(s): **Fiseha Tesfaye, Joseph Hamuyuni, Chukwunwike Iloeje and Alexandra Anderson:**
fiseha.tesfaye@abo.fi; joseph.hamuyuni@mogroup.com; ciloeje@anl.gov; allieanderson0@gmail.com;

Committee Sponsor(s): **Recycling and Environmental Technologies; Energy; Process Technology and Modeling**

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
