

# JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

**Publication Date:** *November 2023*

**Manuscript Deadline:** *May 1, 2023*

## ***Recycling End of Life Products Containing Aluminium***

Recycling end-of-life (EoL) products containing aluminium, e.g. cars, batteries, packaging, drink cartons, electronics, etc. is vital for resource efficiency. Papers representing new insight or technologies in the recycling chain steps: collection, sorting, pre-treatment, melting, refining and casting are invited, together with value chain perspectives. Final product quality and calculations of the environmental performance with higher EoL recycling are also in scope.

Original research papers should be 3,000-9,000 words with up to 12 figures maximum; review papers should be 6,000-11,000 words with up to 20 figures maximum.

Detailed author instructions are available at:  
<http://www.tms.org/AuthorTools/>

**Keywords for this topic:** **Aluminum; Environmental Issues; Molten Metal and Solidification; Recycling and Secondary Recovery; End of Life Products; Collection; Sorting; Pre-treatment; Melting; Refining; Casting; Environmental Performance**

**Guest Editor(s):** **Anne Kvithyld and Hong Peng:**  
[anne.kvithyld@sintef.no](mailto:anne.kvithyld@sintef.no); [h.peng2@uq.edu.au](mailto:h.peng2@uq.edu.au)

**Committee Sponsor(s):** **Aluminum**

If you are interested in submitting a paper, upload your manuscript at  
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
