

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *December 2023*

Manuscript Deadline: *June 1, 2023*

Composite Materials for Sustainable and Eco-Friendly Material Development and Application

This special topic focuses on innovations in the field of composite materials with a specific focus on eco-friendly and environmentally sustainable systems. Work focused on these activities in all composite fields are invited including polymer, metal, and ceramic matrix composites. Emphasis on sourcing raw materials in a sustainable way as well as development of composite materials for environmental sustainability are encouraged. Papers looking at both the development of new materials for structural applications, reduction in energy consumption, and increased component life along with discussions of novel methods to reuse existing materials are encouraged.

Original research papers should be 3,000-9,000 words with up to 12 figures maximum; review papers should be 6,000-11,000 words with up to 20 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic: **Advanced Materials; Composites; Environmental Issues; Recycling and Secondary Recovery**

Guest Editor(s): Brian Wisner, Ioannis Mastorakos, Muralidharan Paramsothy and Simona Murph:
bwisner@ohio.edu; imastora@clarkson.edu; mpsothy@yahoo.co.uk;
Simona.Murph@srnl.doe.gov;

Committee Sponsor(s): **Composite Materials**

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
