

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *March 2018*

Manuscript Deadline: *October 1, 2017*

The Composite Materials Committee is seeking papers on the topic of
Additive Manufacturing of Composites and Complex Materials

This topic will present invited papers from a symposium scheduled for Materials Science and Technology 2017. Areas of research covered include homogeneous composites via processing of powder mixtures or in-process combination of constituents; homogeneous multi-phase materials; materials tailored to show locally different compositions and/or microstructures; material integration of 3D structures, such as conductive paths, to endow components with added functionality, including e.g. sensor and electronics integration.

Typical paper length is 5,000 to 6,500 words for review papers, and 2,400 to 4,000 words for original papers.

Detailed author instructions are available at:

<http://www.tms.org/AuthorTools/>

Keywords for this topic:

Additive manufacturing, composites

Guest Editor for this *JOM* topic is Jonathan Spowart
jonathan.spowart@us.af.mil

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
