

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *February 2019*

Manuscript Deadline: *September 1, 2018*

The Energy Committee and Recycling and Environmental Technologies Committee are seeking papers on the topic of
Energy Materials

This topic focuses on research for the production, processing and characterization of materials of potential use in energy conversion, energy technologies, and energy sustainability. Materials covered include metallic materials, semiconducting materials, nanomaterials, optoelectronic materials, and novel polymers. Also included are photovoltaics, solar fuels, biomass to liquid fuels, thermoelectric materials, electrode materials for batteries, hydrogen storage, and energy saving catalysts for the chemical industry.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic:

Energy, energy conversion and storage, characterization, synthesis, catalysts

Guest Editors for the *JOM* topic are Tao Wang and Shadia Ikhmayies:

tao.wang@nucor.com; shadia_ikhmayies@yahoo.com

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
