

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *October 2018*

Manuscript Deadline: *May 1, 2018*

The Hydrometallurgy and Electrometallurgy Committee is seeking papers on the topic of *Solution Purification Technology*

The effluent/solution management of waste in the extractive metallurgical industry is becoming crucial as the world demand of metals increases with the growing market and demand for clean energy technologies. Therefore, there are compelling needs for understanding and designing effluent/waste management in the extractive metallurgical industry. Papers are invited on topics including effluent/solution treatment processing related to mining, metal extraction and recycling, secondary recovery, nuclear waste, and water treatment.

Typical paper length is 5,000 to 6,500 words for review papers, and 2,400 to 4,000 words for original papers.

Detailed author instructions are available at:

<http://www.tms.org/AuthorTools/>

Keywords for this topic:

Aqueous processing, effluent, electrometallurgy, environmental effects, hydrometallurgy, waste management

Guest Editors for this JOM topic are Takanari Ouchi and Sheikh Abdul Rezan:

t_ouchi@mit.edu; srsheikh@usm.my

If you are interested in submitting a paper, upload your manuscript at

<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
