Call for papers

An official publication of The Minerals, Metals & Materials Society

A STATE AND A PARTY

Publication Date: September 2018 Manuscript Deadline: April 1, 2018

The ICME Committee is seeking papers on the topic of **ICME – 10 Years Later:** Success and Challenges

In 2008, the National Academy of Engineering issued a report entitled "Integrated Computational Materials Engineering: A Transformational Discipline for Improved Competitiveness and National Security." 2018 is the 10 year anniversary of this major milestone in the discipline of ICME. Papers will examine how ICME has affected the way that materials science and engineering is taught, the product development life cycle and the design of new materials. Papers are also invited that deal with the major challenges that remain from the vision set out by the 2008 ICME report.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at: http://www.tms.org/AuthorTools/

Keywords for this topic: ICME

Guest Editors for this JOM topic are Terry Wong and Muralidharan Paramsothy:
