

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *June 2019*

Manuscript Deadline: *January 1, 2019*

The Powder Materials Committee is seeking papers on the topic of
Powder Materials for Energy Applications

This topic will cover all aspects of powder material processing and property studies with energy applications as the main objective. It can include powder synthesis, forming (including additive manufacturing), sintering, and property evaluation. Papers from both industry and academics will be solicited.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic:

Additive manufacturing, advanced materials, advanced processing, characterization, composites, energy, energy conversion and storage, physical properties, powder technology, shaping and forming, synthesis and processing

Guest Editor for the *JOM* topic is Kathy Lu:
klu@vt.edu

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
