

JOM Call for papers

An official publication of The Minerals, Metals & Materials Society

Publication Date: *April 2019*

Manuscript Deadline: *November 1, 2018*

The Steels Committee is seeking papers on the topic of
Advanced High-Strength Steels for Automobiles

Advanced high strength steels (AHSS) are particularly important to the automotive industry. The application of AHSS on automobiles is an effective way to reduce the weight of vehicles and therefore the fuel consumption while maintaining the passive safety. New AHSS grades are actively being researched in industry and academia. This special topic focuses on the latest developments in AHSS and invites contributions on the understanding of process-microstructure-property relationships of AHSS.

Original research papers should be 3,000-6,000 words with up to 8 figures maximum; review papers should be 6,000-10,000 words with up to 15 figures maximum.

Detailed author instructions are available at:
<http://www.tms.org/AuthorTools/>

Keywords for this topic:

Automotive steel, iron and steel, phase transformations, alloy phases

Guest Editor for the *JOM* topic is Mingxin Huang:
mxhuang@hku.hk

If you are interested in submitting a paper, upload your manuscript at
<https://www.editorialmanager.com/jomj/>

Please note that all submissions will be subject to peer review. Submission does not guarantee acceptance.
