SUBMIT AN ABSTRACT TO:

MATERIALS PROCESSING

**9TH INTERNATIONAL SYMPOSIUM ON HIGH-TEMPERATURE
METALLURGICAL PROCESSING**

The organizers solicit papers from authors who are engaged in the analysis, development, and/or operation of high-temperature processes that involve the extraction and processing of material resources, production, and treatment of metals, alloys, and ceramic materials.

Papers that describe innovative methods for achieving property enhancement, impurity segregation and removal, by-product recovery, waste minimization, energy efficiency, and utilization of complex ores are particularly welcome. Also of interest are papers on the various technical, economic, and environmental issues associated with commercial-scale high-temperature processing methods.

Best papers presented and published in the symposium proceedings will be selected, and award certificates will be issued.
