 San Antonio, Texas, USA

JOIN US FOR THIS TMS2019 SYMPOSIUM:

MATERIALS PROCESSING

10th International Symposium on High Temperature Metallurgical Processing

The organizers solicit papers from authors who are engaged in the analysis, development and/or operation of high-temperature processes that involve the extraction and processing of material resources, production and treatment of metals, alloys and ceramic materials. Papers that describe innovative methods for achieving property enhancement, impurity segregation and removal, by-product recovery, waste minimization, energy efficiency, and utilization of complex ores are particularly welcome. Also of interest are papers on the various technical, economic, and environmental issues associated with commercial-scale high-temperature processing methods.

Best papers presented and published in the symposium proceedings will be selected, and award certificates will be issued.

A joint session will be coordinated with REWAS on recycling materials.

ORGANIZERS

Tao Jiang, Central South University, China

Jiann-Yang Hwang, Michigan Technological University, USA

Dean Gregurek, RHI Magnesita, Austria

Zhiwei Peng, Central South University, China

Jerome P. Downey, Montana Tech of the University of Montana, USA

Baojun Zhao, The University of Queensland, Australia

Onuralp Yücel, Istanbul Technical University, Turkey

Ender Keskinilic, Atılım University, Turkey

Mark W. Kennedy, Proval Partners SA, Norway

Rafael Padilla, University of Concepcion, Chile

Elsa Olivetti, Massachusetts Institute of Technology, USA

Camille M. Fleuriault, Gopher Resource, USA

Nearly 4,000 presentations are planned
 at more than 80 symposia at TMS2019.
