March 10–14, 2019
San Antonio, Texas, USA

JOIN US FOR THIS TMS2019 SYMPOSIUM:

LIGHT METALS

Alumina & Bauxite

The Alumina & Bauxite Symposium, along with Aluminum Reduction Technology, Electrode Technology for Aluminum Production, Cast Shop Technology, and Aluminum Alloys, Processing and Characterization collectively form the Light Metals Symposium. These sessions are an excellent opportunity to interact with experts from the light metals industry and academia from all over the world and get the latest updates on key issues in the industry.

Based on the importance of improving processes, reducing environmental impact, and facing global challenges in aluminum production, you are invited to submit papers of fundamental and applied research in the following subject areas:

- Changes in bauxite supply and future demands
- Bauxite ore characterization
- Bauxite mining and processing
- Handling and processing
- Sustainability and environmental issues
- Bauxite residue handling and opportunities
- Automation and process control
- Cost reduction strategies
- Alumina quality and properties (joint session with aluminum reduction)

ORGANIZER

Corleen Chesonis, Metal Quality Solutions, LLC, USA

Nearly 4,000 presentations are planned
at more than 80 symposia at TMS2019.
