March 10–14, 2019
 San Antonio, Texas, USA

JOIN US FOR THIS TMS2019 SYMPOSIUM:

ELECTRONIC MATERIALS

Phase Stability, Phase Transformations, and Reactive Phase Formation in Electronic Materials XVIII

This is the 18th in a series of TMS symposia addressing the stability, transformation, and formation of phases during the fabrication, processing, and utilization of electronic materials and devices. Topics of interest range from microelectronic technologies to advanced energy technologies, including phase stability, transformation, formation, and morphological evolution of electronic packaging materials, interconnection materials, integrated circuit materials, optoelectronic materials as well as energy storage and generating materials.

ORGANIZERS

Hiroshi Nishikawa, Osaka University, Japan

Shih-Kang Lin, National Cheng Kung University, Taiwan

Chao-hong Wang, National Chung Cheng University, Taiwan

Chih-Ming Chen, National Chung Hsing University, Taiwan

Dajian Li, Karlsruhe Institute of Technology, Germany

Song-Mao Liang, Clausthal University of Technology, Germany

Ming-Tzer Lin, National Chung Hsing University, Taiwan

Zhi-Quan Liu, Institute of Metal Research, Chinese Academy of Sciences, China

Jae-Ho Lee, Hongik University, South Korea

Yee-Wen Yen, National Taiwan University of Science & Technology, Taiwan

Yuan Yuan, Chongqing University, China

Yu Zhong, Worcester Polytechnic Institute, USA

Nearly 4,000 presentations are planned at more than 80 symposia at TMS2019.

Visit www.tms.org/TMS2019 today to register and book housing.
